**Please note that all of our quotations are based on the following terms:**

1. A suitable forklift will be available for the duration of the erection procedure and will lift at least 1.5 ton.
2. That the construction can take place during normal working hours.
3. That power and lighting will be available.
4. That access to site will be clear and no specialised equipment will be required.
5. The site will be clear and ready for installation and no specialised erection equipment is required.
